Article datasheet NP-FIBER-FOCLEANER100

Article:	NetPeppers fiber optic cleaner 100 ml
Art. No.:	NP-FIBER-FOCLEANER100
EAN:	0725844669953
Short text I:	The NetPeppers fiber optic cleaner for residue-free cleaning of fiber optics during connector assembly, fiber optic splicing or for connector cleaning.
Gross weight (kg):	0.112
Width (m):	0.041
Height (m):	0.132

The NetPeppers fiber optic cleaner is the all-rounder for cleaning in the fiber optic field. On the one hand, it is very well suited for wet cleaning of connector end surfaces in combination with a cleaning platform or a cleaning cassette. On the other hand, it can be used for cleaning after the coating has been stripped from the fiber before fusion splicing or connector assembly. The active formula is fast-drying and non-flammable, making it a real alternative to flammable liquids such as isopropyl alcohol, which are often used to clean glass fibers. The cleaner is supplied in a practical 100 ml spray bottle.
