

WIFI ACCESSORY KIT E3BWLAN

FOR ALL CONTROLLER CHARGING STATIONS

This accessory kit can be used to retrofit a wireless connection between an ABL Controller charging station and an existing WiFi network. After installation, communication in both directions between the Controller charging station and a backend can be established via the network. As WiFi standards IEEE802.11b/g/n and current safety protocols are supported, fast as well as secure data transmission is guaranteed at any time.

Please note: Connection via WiFi does not allow remote updates or remote servicing. From ABL's point of view, WiFi is therefore only recommended in case of very weak mobile network reception at the installation site.

General information

Model	WiFi accessory package for installation in all ABL Controller charging stations
Product number	E3BWLAN
EAN number	4011721182896
Commodity code	85176200
Packaging unit (PU)	1 unit
Items supplied	WiFi USB dongle, download notice

Product details

Type	WiFi dongle with USB A plug
Connector	Via the USB A port of the SBC
WiFi standard	IEEE802.11b/g/n
Encryption	WPA-PSK or WPA2-PSK
Frequency range	2.4 to 2.4835 GHz
Rate of data transmission	max. 300 Mbps (11n)
Material	Plastic
WLAN USB dongle dimensions (H x W x D)	16.6 x 8.5 x 22.3 mm
Packaging dimensions (H x W x D)	120 x 100 x 75 mm
Weight (net)	approx. 0.01 kg
Weight (gross)	approx. 0.07 kg

Subject to change: All performance characteristics, technical and other specifications are subject to change without prior notice.
