WALLBOX eMH3
TWIN EXTENDER WITH CHARGING CABLES
22 kW

The Wallbox eMH3 features two fixed charging cables with Type 2 charging connectors. Thanks to its ability to charge two vehicles simultaneously, it is the ideal solution for applications with a backend or load management. In multiple unit installations up to 7 Wallboxes eMH3 extender can be connected to one controller unit. Alternatively, the Wallbox eMH3 can be configured for stand-alone use using the software provided. With a Type A residual current circuit breaker (RCCB) and fault current detection integrated as standard, the wallbox is pre-installed and ready for connection by the installing technician and for immediate use. The eMH3 is 'Made in Germany' and offers the highest safety standards available.
