

RAPID 4300 CASTING MATERIAL FOR LOW/MEDIUM VOLTAGE CABLE JOINTS

KEY FEATURES

- Two-component, polyurethane-type casting material
- Hydrophobic (waterrepellent)
- Suitable for filled XLPE, PE, PVC and paper insulated cables
- Excellent curing profile at various temperatures
- Available in double chamber bags and cans of various sizes

TE Connectivity's (TE) RAPID 4300 is a two-component, polyurethanetype casting material. It is an elastic polyurethane resin, meeting the requirements of HD 631.1 S2 and EN 50393. It has excellent insulation properties and is well suited for all low voltage cable joint systems and for medium voltage systems where mechanical protection and protection against water ingress is required.

Preparation of RAPID 4300 starts immediately before the casting process. The two components are mixed either in a double chamber bag or in a can to start the cross-linking process.

RAPID 4300 has excellent hydrolytic stability and most impressive hydrophobic characteristics. Foaming problems during curing are avoided, even in a relatively high humidity environment. This ensures long-term stability under service conditions. Furthermore, RAPID 4300 has an excellent curing profile at various temperatures, which allows easy handling and curing, summer and winter alike.

Permanent elasticity ensures longterm stability and accommodation of cable movement. As a result of the cross-linking reaction, the resin bonds strongly to functional parts, preventing the creation of voids between hardened resin and cable insulation.

Customers can count on consistent, high quality products, driven by TE's proven innovation and backed by our extraordinary customer support.

System-tested according CENELEC EN 59393 and CENELEC HD 631.1 S2 (LI-W, LMP-W, MMP-W).

TECHNICAL DATA		
Туре	polyurethane	
Color	beige	
Shelf Life	24 months	
Reaction Temperature	60 °C	
Pot Life at 23 °C	15 mins	
Storage Temperature	5 °C min/40 °C max	
Hardness	30 Shore D	
Tensile Strength	4 MPa	
Elongation at break	30 %	
Dielectric strength	16 kV/mm
