

**B-LIGHT Sensor module cover**

Article no. 55171070

**Tender**

Sensor module cover, white. Sensor module cover for modular quick-mounting trunking system for integrating system-compatible sensors within the trunking line, prepared for ESYLUX sensors (defined opening/hole geometry). Tool-free installation using integrated quick-locking mechanism (mechanical latching mechanism) with immediate mechanical fixing in the aluminum trunking. Mechanically dimensionally stable design for system-compliant integration into the continuous-row lighting architecture.

Electromechanical contacting via prepared connection area with continuous PE conductor routing; sensor connection via prepared sensor connection tap (on the system side). Suitable for 7- and 11-pole SML trunking. Protection class I in accordance with EN 61140. Protection class IP20 in accordance with DIN EN 60529. Powder-coated surface, color white (RAL 9016)., Material: Plastic, .

Product Benefits

- Sensor module cover with ESYLUX-prepared opening/hole geometry for defined sensor integration
- Tool-free quick installation via latching mechanism with positive and non-positive fixing in the mounting rail.
- Dimensionally stable cover for clean line integration (sensor segment as defined system section).
- Prepared connection area for sensor connection, including continuous protective conductor routing (PE).
- Suitable for 7- and 11-pole SML mounting rails (system platform, pole-dependent wiring on the project side).
- IP20 / indoor use and protection class I in accordance with EN 61140 for clear planning classification.
- Powder-coated surface, white (RAL 9016).

B-LIGHT Sensor module cover

Article no. 55171070

Article data	
Article no.	55171070
GTIN	4255752527664
Series name	B-LIGHT
Short description	Sensor module cover
Material	Plastic
Colour	white
Length	1,438 mm
Width	75.8 mm
Hight	49.7 mm
Weight	0.81 kg

Packing data	
Gross weight	1.12 kg
Length of packaging	1,448 mm
Packaging width	85 mm
Packaging hight	45 mm
Disposal at end of life	This product must not be disposed of with household waste. You are obliged, to dispose of such electrical waste separately. By disposing of electrical waste and other old or defective electronics separately, you support recycling or other forms of re-use. In that way you help to take care and to avoid that harmful substances get into the environment.
