

**SCHUKO built-in socket Concept 45**  
**green****Product Data Sheet**

|                                        |                             |
|----------------------------------------|-----------------------------|
| With child-protection                  | Yes                         |
| Frequency                              | 50-60Hertz                  |
| Nominal voltage                        | 250Volt                     |
| Halogen free                           | Yes                         |
| Nominal current                        | 16Ampere                    |
| Model                                  | Protective contact (SCHUKO) |
| Connection type                        | Plug clamp                  |
| Colour                                 | Green                       |
| Mounting method                        | Wall duct                   |
| Type of fastening                      | Mounting with screw         |
| Material                               | Plastic                     |
| Material quality                       | Thermoplastic               |
| Surface protection                     | Untreated                   |
| Suitable for degree of protection (IP) | IP20                        |

**SCHUKO built-in socket Concept 45**  
**green**

SCHUKO built-in socket Concept 45, 45 mm wide, with clamp terminals, double pole,  
16 A 250 V, with connecting terminals in compliance with VDE 0620, single,  
vertically aligned, with increased protection against electric shock
