

CLEANING SURFACE INSTRUCTION

for all rutec VARDAflex Neon LED-strips

- required material: soft cleaning tissue
 gloves
 water
- cleaning product: KENT floor cleaner item no.: 8645622
- application: Damp the cleaning tissue with the cleaner and
 clean the strips without pressure.
 Wait for 10 minutes and then clear it with water.
 Repeat this procedure every 4 weeks.
 If you have less pollution you can use the product
 in a ratio of 1:2. (1 part cleaner: 2 parts water)
- tip: Please make sure that all LED-strips are switched
 off while cleaning.
 Gloves must be worn when cleaning the LED-strips
 and please ensure an adequate ventilation if
 cleaning inside.
- The product you use is flammable.
 Keep it out of reach of children, recommended
 in a locked room.
