VX25 baying enclosure system, sheet steel or stainless steel or Sheet steel with zinc magnesium coating, with or without mounting plate, single/two doors at the front.

Dimensions: Width: 300 up to 1200 mm
 Height: 550 up to 2200 mm
 Depth: 300 up to 1200 mm

IP: IP55
IK: IK10

Application/Limitation

Operating instruction of the manufacturer to be observed

Type Approval documentation

Tests carried out

DIN EN 62208:2011, vibration

Marking of product

Rittal - Type designation - Main data.

Periodical assessment

The scope of the periodical assessment is to verify that the conditions stipulated for the Type approval are complied with and that no alterations are made to the product design or choice of materials.

The main elements of the assessment are:

- Inspection on factory samples, selected at random from the production line (where practicable)
- Results from Routine Tests (RT) checked (if not available tests according to RT to be carried out)
- Review of type approval documentation
- Review of possible change in design, materials and performance
- Ensuring traceability between manufacturer's product type marking and Type Approval Certificate.

Periodical assessment is to be performed after 2 years and after 3.5 years. A renewal assessment will be performed at renewal of the certificate.
