Deliver Reliable System Performance

Optimizing Space in the Control Panel (pages 5-8)

In manufacturing organizations, real estate is typically one of the biggest expenses associated with running the business. As a result, production facility managers are under pressure to manage their space in the most effective and efficient manner to minimize capital and operational expenses. This can mean placing as much equipment as possible into a given area in the facility, which challenges equipment designers and builders to reduce the size and footprint of the machines they create. This, in turn, challenges the controls engineers to design and build control panels within a smaller footprint or fit more equipment into an existing space. There are many challenges associated with designing smaller control panels. Considerations for cable segregation, thermal management, cable entry, electromagnetic interference (EMI), cable bend radius and space for future expansion must be addressed when attempting to reduce the size of control panels.

Improving Productivity in Control Panel Applications (pages 9-19)

Efficiency. Output. Yield. Productivity. Businesses today insist on accomplishing as much as possible in as little time as possible. Products and processes that maximize uptime, reduce costs and meet production deadlines are in high demand as machine designers and builders race to remain competitive and deliver upon their customer's expectations.

Mitigating Security and Safety Risks (pages 20-27)

Integrating the security element into equipment and enclosures is essential as it allows design/controls engineers to create multiple layers of security that work together to protect the network and equipment without retrofitting or replacing components. Physical security solutions that help control access to automation devices can be effective additions to other layers of security employed in contemporary control systems. Panduit offers diverse and complete solutions for protecting equipment from intentional and unintentional security threats to add value to their customers' physical security needs.

While safety in the workplace is everyone's responsibility, it is particularly crucial that facility managers, electricians, and control panel engineers take all recommended precautions to ensure a safe environment for employees. These precautions not only prevent harm and danger, but also impact the bottom line, both directly and indirectly. Panduit has developed a wide range of solutions designed to protect workers against mechanical, electrical and hazardous situations, as well as products that provide multiple layers of security that work together to protect equipment.

The Connected Control Panel (pages 28-34)

The manufacturing plant floor is undergoing dramatic changes that require businesses to adopt new strategies to fully utilize Industrial Ethernet through things such as advanced motor controls and control architectures to improve efficiencies, increase productivity and drive out costs.

The increasing number of Ethernet nodes on the plant floor and the need to measure productivity in real-time are frequent challenges. Greater use of Ethernet connected advanced controllers, computers and high-speed motion control and power electronics require new design strategies beyond traditional panel selection and layout to ensure the automation systems deliver improved network performance and accommodate an increasing use of Industrial Ethernet managed switches and networked devices. Copper and fiber connectivity for harsh environment deployments, DIN rail mountable patching devices, Motor Control Center (MCC) Connectivity, and Uninterruptible Power Supplies are integrated into the control panel design for a complete network Connected Control Panel.

Space Optimization

Regardless of the challenges encountered, Panduit solutions will provide maximum optimization of the limited space inside a control panel. Optimized control systems increase design flexibility and organization while providing robust, environment-rated solutions that ensure ideal performance, availability and uptime.

Panduct® PanelMax™ DIN Rail Wiring Duct   c(UL)us (SA) C E
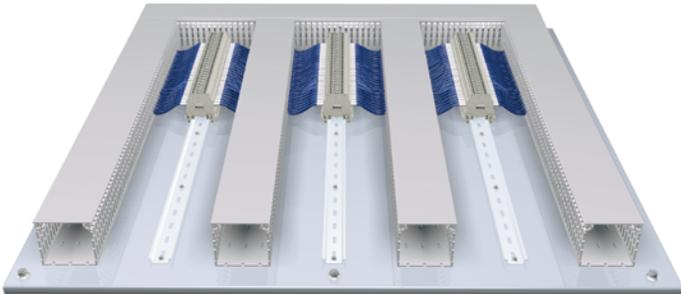

Conventional wiring duct panel layout

30% + Space Savings

DIN rail wiring duct panel layout with 30% space savings

DRD

DRDWR

Part Number	Description	Std Pkg Qty
DRD22LG6	2" height PanelMax™ DIN Rail Wiring Duct with dual wiring channels. Base, covers, and DIN rail fasteners included. Length 6'.	6 ft
DRD33LG6	3" height PanelMax™ DIN Rail Wiring Duct with dual wiring channels. Base, covers, and DIN rail fasteners included. Length 6'	6 ft
DRD44LG6	4" height PanelMax™ DIN Rail Wiring Duct with dual wiring channels. Base, covers, and DIN rail fasteners included. Length 6'.	6 ft
DRDWR2-X	2" wire retainer for PanelMax™ DIN Rail Wiring Duct, Black. 10 per package.	10 pcs.
DRDWR3-X	3" wire retainer for PanelMax™ DIN Rail Wiring Duct, Black. 10 per package.	10 pcs.
DRDWR4-X	4" wire retainer for PanelMax™ DIN Rail Wiring Duct, Black. 10 per package.	10 pcs.

Product is sold base and cover together in 6 ft, lengths. Part numbers shown in LG (Light Gray); also available in WH (White).

DIN rail and DIN component compatible

Unique finger/slot progression for aesthetics and maximum slot capacity

Integrated fastener slot accepts supplied screw fasteners to install DIN rail (user supplied rail)

Locating ribs align and center DIN rail during installation

Pass-through holes shorten the wiring path between components on the same DIN rail

Score lines allow finger removal and base sidewall removal with sidewall notching tool
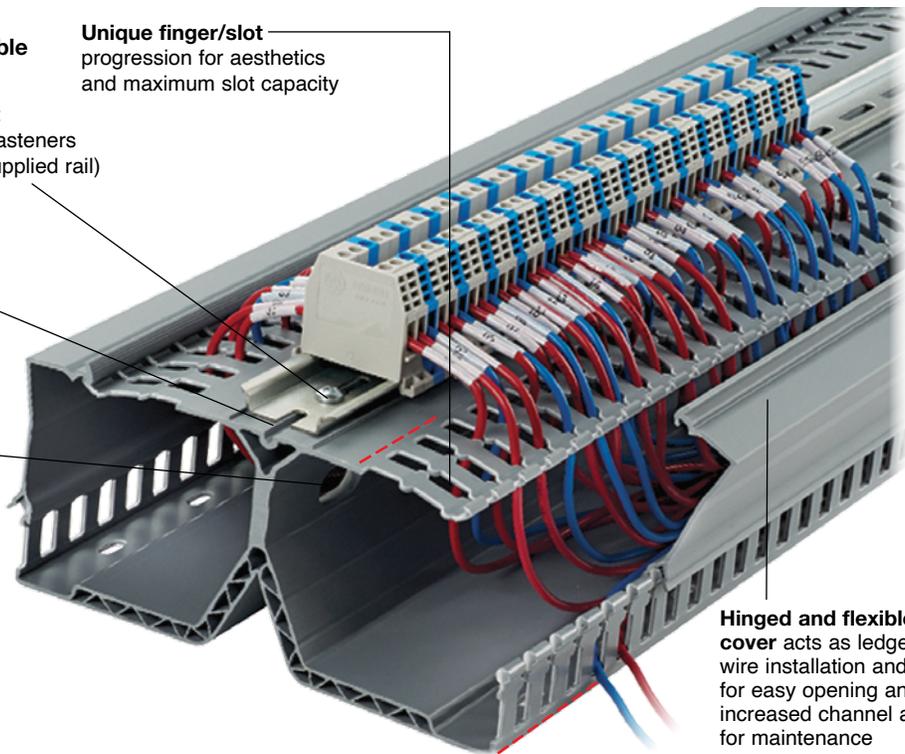

Hinged and flexible cover acts as ledge for wire installation and flexes for easy opening and increased channel access for maintenance

Space Optimization

Panduct® PanelMax™ Corner Wiring Duct Ⓤ Ⓒ CE

PanelMax™ Corner Wiring Duct is used in the vertical corners of medium to large electrical control panels (with both side and back panels) to route, conceal, and protect electrical wiring.

Examples of Space Savings Using 48" W x 24" D x 60" H Enclosure

Conventional Wiring Duct

Need for cover access moves conventional duct outward.

PanelMax™ Corner Wiring Duct

Gains up to 5ft² mounting space per enclosure (over 72" height)

Description	Conventional	With PanelMax™ Corner Wiring Duct	Benefits
Sub-Panel Space Savings			
Usable sub-panel mounting area (assumes 60"H enclosure)	28.7 ft.²	32.2 ft.²	Provides 12% more space, maximizing space utilization for more panel components and greater flexibility in panel layout design
Footprint Space Savings			
Footprint width x depth (square footage)	48" x 24" (8 ft.²)	43.5" x 21.7" (6.6 ft.²)	Provides 12% more space, maximizing space utilization for more panel components and greater flexibility in panel layout design
Floor space cost**	$560	$462***	18% reduction in enclosure size; ideal for space contrained environments
Encloseure and sub-panel costs	$3,700	$3,050***	$650 in enclosure savings

**Based on $70/square foot industrial facility construction cost.
***This is a representative application. Actual savings dependent on wiring duct size, component layout and enclosure size and type. Footprint savings is based on commercially available enclosures and may not be achievable in some applications.

Panduct® PanelMax™ Shielded Wiring Duct and Noise Shield

Panduit noise shielding solution is designed to reduce the effects of EMI/RFI (electromagnetic interference, radio frequency interference) and provide space optimization within industrial control panels. The shielding provides up to 20dB reduction in noise, or 90% noise voltage reduction (NVR), which is equivalent to 6 inches of air spacing, generating valuable panel space savings of 40% or more.
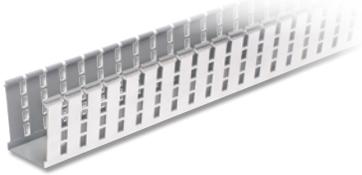

Part Number	Description	Std Pkg Qty
G2X2LG6EMI	2" x 2" PanelMax™ Shielded Wiring Duct; 6' length. Foil metal finish includes anti-oxidizing paste. Cover sold separately.	12 ft

NEW!

Flexible Wiring Duct

Flexible Wiring Duct is a one-piece, slotted sidewall, open finger design meant to route/protect wires in applications that require flexibility. It is manufactured from polypropylene material, is light gray in color, and is designed to add/remove wires after termination without special tooling. Mounting holes are provided for a permanent mounting method with fasteners. The factory-applied high bond acrylic adhesive option is provided for easy positioning and for use on control panel doors and areas where other mounting options are not possible.

Part Number	Part Description	Std Pkg Qty
FL12X12LG	Flexible Wiring Duct without adhesive. 0.49" x 0.49" x 19.7" (12.5mm x 12.5mm x 500mm)	112

Productivity

Panduit has never stopped improving, advancing or reinventing its products to meet modern challenges. We are committed to providing manufacturers with the keys to efficient and effective productivity. Panduit products tap into a 60-year legacy of knowledge, experience, and innovation to provide high quality tools and products that allow designers and builders to be more competitive, more productive, more flexible and, more profitable.

Cable Ties

Fasten, bundle, clamp and manage wiring with cable ties and tools designed to speed installation and improve operator safety.

PLT4S-C0	Panduit® locking tie, standard cross section, 14.5 (368mm) length, weather resistant nylon 6.6, black, standard package.	100 pcs.
GTS-E	Ergonomic cable tie hand tool; installs Subminiature, Miniature, Intermediate, Standard cable tie cross sections; material: impact resistant resin.	1 pc.

Representative list only. Please visit www.panduit.com for full offering.

4-Way Adhesive Backed Cable Tie Mounts c🆄🅻us

Panduit adhesive backed cable tie mounts are a product the control panel industry depends upon to secure wires and cables where mounting holes cannot be drilled. Rubber-based adhesive provides relative quick set compared to acrylic options and provides good static load capacity for a long-term reliable bond. For stronger bond, for use in areas where dynamic movement comes into play (such as wire routing inside control panel doors that are frequently accessed), high bond adhesive mounts are choice. Multiple sizes, available in natural or black, and adhesive options allow for a selection of mounts to meet customer dependent applications.

	Part Number	Description	Std Pkg Qty

ABMQ Multiple Bridge Mount c🆄🅻us

The large adhesive surface area of the Multiple Bridge Mount provides a secure mounting method for up to four cable bundles. The dovetail feature allows multiple mounts to be perfectly aligned, providing an aesthetically pleasing solution with more cable routing capabilities for complex control panel systems. The score in the middle of the mount allows the user to cleanly break the mount in half if all four attachment points are not necessary. The rubber-based tape provides a high quick tack solution to improve adhesive performance in indoor applications.

Part Number	Part Description	Std Pkg Qty
ABMQS-A-C	4-way adhesive backed multiple bridge cable tie mount, ABS, used with Miniature, Intermediate and Standard cable ties. White.	100 pcs.

Dynamic Cable Manager

The Panduit dynamic cable manager provides an engineered solution to secure cable bundles that require routing across the enclosure door hinge. The ball-in-socket design provides a reliable and cost-effective solution to secure the cable bundle that minimizes excessive strain on the mount and the wiring. The rubber-based tape provides a high quick-tack solution to improve adhesive performance in indoor applications.

Part Number	Part Description	Std Pkg Qty
ABDCM30-A-C	Dynamic cable manager for panel strain relief, 1.12" x 1.12" (28.4mm x 28.4mm), nylon 6.6, White.	100 Pcs.

Representative list only. Please visit www.panduit.com for full offering.

Non-Adhesive Cable Tie Mounts

Panduit non-adhesive cable tie mounts are available for screw-mount or push mount applications. Non-adhesive cable tie mounts are also available in a wide selection of specialty materials for resistance to severe environmental conditions. A variety of styles allow for the user to select the most appropriate mount for their application. Mounts should be used with compatible Panduit cable ties for a complete wire routing solution.

PP2S-S10-C

Part Number	Part Description	Std Pkg Qty
PBMS-H25-C	The push button cable tie mount requires a 0.25" (6.4 mm) hole and is natural color. It is made of nylon 6.6, which increases mechanical strength, heat and wear resistance, and stiffness.	100 pcs.
PP2S-S10-C	The pan-post standoff is natural color and requires a #10 (M5) screw. It measures 1.06"L x .72"W x 4.60"H (26.9 x 18.3x 116.9 mm). It is used with miniature, intermediate, and standard cable ties.	100 pcs.
PWMS-H25-C	The winged push barb cable tie mount requires a 0.250" (6.5 mm) hole and is natural color. It is made of nylon 6.6, which increases mechanical strength, heat and wear resistance, and stiffness	100 pcs.
BEST SELLER TM3S10-C	The cable tie mount in natural color is applied with a #10 (M5) screw and is 0.61" (15.5 mm) wide. It is made of nylon 6.6, which increases mechanical strength, heat and wear resistance, and stiffness in indoor environments	100 pcs.
TMEH-S25-Q0	The extra heavy cable tie mount in black is applied with a 1/4" (M6) screw. It is made of weather-resistant nylon 6.6, which increases mechanical strength, heat and wear resistance, and stiffness in outdoor environments.	25 pcs.

All mounts shown in the table are cULus Listed except PWMS-H25-C which is cURus.

Control Panel Mounts

Panduit control panel mounts are designed to provide strain relief for cables that terminate to a control panel switch. These mounts are intended for installation behind a control panel switch and provide a way to secure the terminated cables with a cable tie to maintain a reliable connection. Two sizes are available for the most common sizes of control panel switch designs.
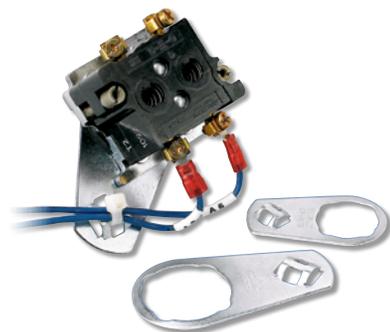

Part Number	Part Description	Std Pkg Qty
CPM87S-C	Control panel switch cable tie mount, 0.89" (22.6mm) hole, material zinc plated steel, used with Miniature, Intermediate and Standard cable ties.	100 pcs.
CPM122S-C	Control panel switch cable tie mount, 1.22" (31.0mm) hole, material zinc plated steel, Miniature, Intermediate and Standard cable ties.	100 pcs.

Adhesive Cable Accessories ⒸⓊⓁus

Adhesive backed cable accessories allow the user to route and secure control panel wiring quickly and reliably with a single piece cable management solution. A wide range of styles and sizes can be used to secure a variety of cables, from individual small diameter wires to large cable bundles. Products are available with designs that use friction to hold a few cables, or with more secure releasable latching designs. The adhesive backed cable accessories use premium Panduit adhesive for a long-term reliable bond.

ACC38-A-C

Part Number	Part Description	Std Pkg Qty
ACC38-A-C	Adhesive backed cord clip, .38" (9.7mm) bundle, natural.	100 pcs.
ACC62-A-C	Adhesive backed cord clip, .62" (15.8mm) bundle, natural.	100 pcs.
BEC62-A-T	Adhesive backed bevel entry clip, .62" (15.8mm) bundle, natural.	200 pcs.
BEC75-A-L	Adhesive backed bevel entry clip, .75" (19.1mm) bundle, natural.	50 pcs.
LWC50-A-L14	Adhesive backed latching wire clip, .50" (12.7mm) bundle, gray.	50 pcs.
LWC50-A-L14	Adhesive backed latching wire clip, .75" (19.1mm) bundle, gray.	50 pcs.

Terminals ⒸⓊⓁus CSA CERTIFIED

Panduit terminals are designed and manufactured for fast assembly and reliable performance. Panduit provides an extensive line of tooling designed specifically to provide optimum performance.

Part Number	Description	Std Pkg Qty
BEST SELLER BSN14-C	Butt splice; 16 – 14 AWG; nylon insulated.	100 pcs.
BSN18-C	Butt splice; 22 – 18 AWG; nylon insulated.	100 pcs.
BSV10X-Q	Butt splice; 12 – 10 AWG, vinyl insulated.	25 pcs.
BEST SELLER DNF14-250FIB-C	Female disconnect; 16 – 14 AWG, 0.250 x 0.032 tab size, nylon fully insulated, funnel entry.	100 pcs.
DNF14-250FIB-M	Female disconnect; 16 – 14 AWG, 0.250 x 0.032 tab size, nylon fully insulated, funnel entry.	1000 pcs.
DNF18-250FIB-M	Female disconnect; 22 – 18 AWG, 0.250 x 0 .032 tab size, nylon fully insulated, funnel entry.	1000 pcs.
PN10-10R-D	Ring terminal; 12 – 10 AWG; stud size #10 nylon insulated.	500 pcs.
PN14-10R-M	Ring terminal; 18 – 14 AWG; stud size #10 nylon insulated.	1000 pcs.
PNF10-10R-D	Ring terminal; 12 – 10 AWG; stud size #10 nylon insulated, funnel entry	500 pcs.
BEST SELLER PV10-10F-L	Fork terminal, 12 – 10 AWG, #10 stud size, vinyl insulated, funnel entry.	50 pcs.
BEST SELLER PV10-10R-L	Ring terminal: 12 - 10 AWG, stud size #10, vinyl insulated, funnel entry.	50 pcs.
PV10-14R-L	Ring terminal; 12 – 10 AWG; stud size 1/4", vinyl insulated, funnel entry.	50 pcs.
PV14-10R-M	Ring terminal; 16 – 14 AWG; stud size #10, vinyl insulated, funnel entry.	1000 pcs.
BEST SELLER CT-1550	Crimps most Pan-Term® #22 – 10 AWG Nylon and Vinyl Insulated Terminals, Splices, and Disconnects. The CT-1550 has the Red/Blue pocket closest to the pivot which provides a reduced crimp effort for those who make Red/Blue terminations.	1
BEST SELLER CT-2300/ST	The Panduit® BlackFin® Battery Powered Micro-crimping Tool crimps 65 percent faster than a manual crimping tool thanks to an innovative trigger with power sensing technology. The lightweight, ergonomic design requires less hand force, reducing the risk of injury. The 4.7" (120mm) jaw with a force of 1.7 tons crimps a range of #22 – 10 AWG terminals, #26 – 10 AWG single wire ferrules, #22 – 12 AWG twin wire ferrules, and #14 – 10 AWG copper lugs. Includes battery powered micro-crimping tool, one 10.8 V, 1.5 Ah Li-ion battery, battery charger with USA Type A plug, case. Crimp dies (Panduit CD-525, CD-550, CD-570 and CD-090) sold separately.	1

Representative list only. Please visit www.panduit.com for full offering.

Ferrules

Panduit ferrule end sleeves terminate stranded wire into terminal blocks with superior termination performance. A wide assortment of ferrule styles and tool designs provide a proven way to make reliable connections. Meets UL486F, CSA-C22.2, and DIN standards. Automated solutions also available for high-volume applications.

Easy-Mark Plus™ Labeling Software

- Powerful, easy-to-use, and affordable software that provides innovative features and functionality to address unique labeling needs

- Quickly create simple or complex labels with text boxes, lines, frames, or tables, and other useful tools

- Design detailed labels with multiple zones and objects for applications such as rating plates, arc flash labels and fiber optic enclosures

- Simple user interface shows labels on the screen as they will be printed

- Create and print labels using QR codes, or any of the other 21 included barcode symbologies

- Free demo version available at http://www.panduit.com/emp

StrongHold Electrical Tape

StrongHold ST35 and ST43 Series Professional Grade PVC Electrical Tape is a 0.18 mm (7 mil) pressure sensitive vinyl electrical tape that applies easily and provides a high level of performance over a range of temperatures. The Professional series product is flame retardant and resistant to sun, water, oil, acids, alkalies, corrosive chemicals, cold and ultraviolet rays. It is suitable as a primary insulation when used for splicing up 600 Volts and can be used as a protective outer jacket over splices in low temperature applications. StrongHold electrical tape meets ASTM D-3005, Type 1; EN 60454-3-1, Type 11; UL 510, CSA C 22.2 No 197; Meets 2000/53/EC and RoHS 2011/65/EU directives.

VeriSafe™ Absence of Voltage Testers

The Safe Way to Verify the Absence of Voltage.

When servicing electrical equipment, workers must comply with safety regulations that require a voltage verification test to validate the absence of voltage. This process includes a number of stages that can be complex and time-consuming when using hand-held portable test instruments.

The patent-pending VeriSafe™ Absence of Voltage Tester from Panduit simplifies this process by automating the voltage verification process.

Once installed, a simple push of a button enables qualified personnel to verify the absence of voltage and see an active indication when the absence of voltage is confirmed. This provides a new and innovative way to safely, reliably, and efficiently verify the absence of voltage before accessing potentially dangerous electrical equipment.

VeriSafe™ Retrofit Enclosure	
VS-AVT-RBOX	Complete enclosure to retrofit equipment with VeriSafe Absence of Voltage Tester. Includes 8" x 8", 4" panel and AVT device with 10ft. sensor leads and 2ft. system cable.
Accessories	
VS-AVT-CABLE-02	AVT System Cable for use with VeriSafe™ AVT device. Cable length is 2 ft.
VS-AVT-CABLE-04	AVT System Cable for use with VeriSafe™ AVT device. Cable length is 4 ft.
VS-AVT-CABLE-08	AVT System Cable for use with VeriSafe™ AVT device. Cable length is 8 ft.
VS-AVT-CABLE-16	AVT System Cable for use with VeriSafe™ AVT device. Cable length is 16 ft.
VS-AVT-CABLE-20	AVT System Cable for use with VeriSafe™ AVT device. Cable length is 20 ft.
VS-AVT-CABLE-30	AVT System Cable for use with VeriSafe™ AVT device. Cable length is 30 ft.
VS-AVT-BATTERY	Replacement Battery, VeriSafe AVT, 3.6V
VS-AVT-RL	VeriSafe 1.0 AVT Replacement Labels. Includes one faceplate and instruction label replacement for each offered language.
VS-AVT-DL	Diagnostic Label for Verisafe™ AVT Device

VeriSafe™ Insulation Piercing Connectors

- The VeriSafe™ Insulation Piercing Connector provides a fast, secure, and reliable way to terminate AVT sensor leads.

- The compact connector design accommodates up to two taps in a single housing that fully insulates both connections.

- The patent pending connector allows taps to be made without compromising the integrity of conductors and includes integrated strain relief.

- Installation is fast and easy without the need to strip wires.

- Ideal for new and retrofit applications, connections can be made without modifying existing conductor runs.

Part No.	Description
BEST SELLER VS-CKP14-6	VeriSafe™ Insulation Piercing Connection Kit for Tapping 14 to 6 AWG conductors. Kit includes 3 connectors for installment of 1 AVT
VS-CKP4-000	VeriSafe™ Insulation Connection Kit for Tapping 4 to 3/0 AWG conductors. Kit includes 3 connectors for installment of 1 AVT
VS-CKP1K4/0-500	VeriSafe™ Insulation Piercing Connection Kit for Tapping AWG 4/0 to 500MCM copper conductors. Rated for 1KV installations. Kit includes 3 connectors for installation of 1 AVT.

StructuredGround™ Flat Braided Bonding Straps

StructuredGround™ Flat Braided Bonding Straps are used to electrically bond enclosure doors, subpanels, motors, and machines in most applications for safety and ESD (Electrostatic Discharge). The flat ferrule design of this bonding component helps to reduce the effects of EMI because it passes high-frequency noise more effectively than round stranded-type cables.

In applications where motion or vibration is a concern, these straps resist breaking and cracking of individual strands that can degrade the effectiveness of the bond. They are constructed of #4 AWG tin-plated copper with a minimum strap width of 1" and can be terminated with a seamless ferrule that maintains the flat braided shape across its entire length.

Insulated
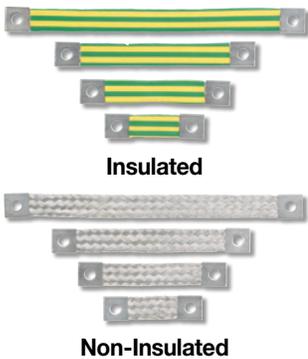

Non-Insulated

StructuredGround™ Universal Ground Bar System

The StructuredGround™ Universal Ground Bar System (UGB) is precision machined from electrolytic copper and tin plated to inhibit corrosion and offers multiple termination methods and mounting options, making it ideal for any control panel or enclosure application. The UGB enables the end user to choose the method in which to terminate conductors with connectors of their choice or simply cut and strip the wires. The UGB system will help reduce the types of ground bars that are needed to meet the various applications and customer requirements. The UGB is UL 467 Listed and CSA 22.2 Certified for grounding and bonding an equipment conductor up to 2/0 AWG; meets UL 508A requirements.

Part Number	Description	Std Pkg Qty
UGB2/0-414-6	Universal ground bar accepts #14 – 4 AWG wire in 6 wire ports; add up to a 2/0 AWG main equipment grounding conductor with a compression or mechanical connector; 4.92" (125mm) length, 0.62" (15.7mm) width, 0.48" (12.2mm) height.	1
UGB2/0-414-12	Universal ground bar accepts #14 – 4 AWG wire in 12 wire ports; add up to a 2/0 AWG main equipment grounding conductor with a compression or mechanical connector; 8.28" (210.3mm) length, 0.62" (15.7mm) width, 0.48" (12.2mm) height.	1
UGB2/0-414-18	Universal ground bar accepts #14 – 4 AWG wire in 18 wire ports; add up to a 2/0 AWG main equipment grounding conductor with a compression or mechanical connector; 11.64" (295.7mm) length, 0.62" (15.7mm) width, 0.48" (12.2mm) height.	1
UGB-IN-SO	Universal ground bar isolation stand-offs; includes two stand-offs and hardware; 1.57" (40mm) length, 0.59" (15.0mm) width, 0.98" (25.0mm) height.	1
UGB-B-SO	Universal ground bar bonding stand-offs; includes two tin-plated copper stand-offs and hardware; 2.34" (59.3mm) length, 0.63" (15.9mm) width, 0.75" (19.1mm) height.	1

Adhesive Lined Grommet Edging ⓊL®

Grommet edging protects and prevents wires and cables from chafing against sharp edges of panel walls and knockouts. Pressure sensitive adhesive provides an easy, clean, and secure application where additional holding strength is required. Use the slotted grommet edging to line irregularly shaped and round panel holes. Use the solid product for straight runs. The adhesive lined grommet edging has a shelf life of 3 years.
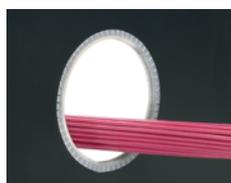

Part Number	Description	Std Pkg Qty
BEST SELLER GEE62F-A-C	Slotted grommet edging with adhesive, 0.036" – 0.062" panel thickness, polyethylene, Natural. 100 feet per roll.	1 Roll

Spiral Wrap ⓊL®

Spiral wrap products provide abrasion protection for wire, cable, hoses, and tubing. The spiral wrap harnesses multiple cables into a single manageable bundle and allows for breakouts of single/multiple cables. Spiral wrap is available in several different colors to allow for easy identification of specific cable bundles. Multiple material options are available to allow the user to select the material that best suits their application needs. A simple installation tool is supplied in each package.

Part Number	Description	Std Pkg Qty

Pan-Wrap™ Split Harness Wrap Ⓤ®

Pan-Wrap™ Split Harness Wrap is an abrasion protection product that incorporates an innovative design to maintain uniform bundle protection in dynamic applications. The unique wall design provides for easy cable breakouts and the patented slot pattern provides improved flexibility and abrasion protection properties. The large overlap accommodates a wide range of bundle diameters. The Pan-Wrap™ Installation Tool is effective in considerably reducing the time required to install a cable bundle within the Pan-Wrap™ Split Harness Wrap.

Corrugated Loom Tubing

Corrugated Loom Tubing is a cost-effective solution to provide abrasion protection and light crush and impact resistance for cables. The lengthwise slit makes it easy to install a bundle of wires or a pre-assembled harness assembly. The corrugated material is designed to be flexible and allow for navigating around tighter corners. The corrugated tubing does not have any insulating properties and is only suitable for indoor use only.

	Part Number	Description	Std Pkg Qty
BEST SELLER	CLT25F-C20	The corrugated loom tubing slit wall measures .25" (6.4mm) x 100' (30.5m). It is black and made of polyethylene.	1 Roll

Data Access Port Rated Type (UL, CSA, NEMA) 4, 4X, and 12, IP65, IP66

The Data Access Port provides data port and electrical outlet access to equipment without the safety hazards of opening the panel. The access port provides availability to log in to the network at the work site and can be used for reprogramming internal controllers. The circular design allows for data access ports to be installed effortlessly by using a standard panel punch. The modular design allows for RJ45 jacks, circuit breakers, USB, and other modular connectors to be interchanged at any time, allowing maximum design flexibility. Snap on mounting plate covers mounting screws and prevents tampering or unauthorized removal of access port from the control panel. Data access port has both a quarter turn lock and provisions for a padlock, both of which provide exceptional security. Versions are configured to accommodate any specification, including custom marking. In addition to the Simplex and GFCI outlets, options are available to incorporate standard 45mm European outlets.

The Connected Control Panel

An ethernet enabled control panel supports the increasing number of Ethernet nodes on the plant floor and allows the business to measure productivity in real-time, resulting in improved efficiencies, increased productivity and reduced costs.

Industrial Network Uninterruptible Power Supply (UPS)

The Panduit Industrial Network UPS uses ultracapacitors instead of batteries, providing uninterrupted power and decreased risk of downtime for critical industrial applications including managed network switches, micro PLCs, and HMIs. The no-battery design is maintenance-free, delivering 2X better ROI and 50 – 70% lower cost of ownership than a battery-based UPS. Remote management via Ethernet connectivity with SNMP v1/v2c/v3 capability and standard web browser interface reduces operation expenses.

Part Number	Part Description	Std Pkg Qty
UPS00100DC	Uninterruptible Power Supply (UPS), 100 Watt; no-battery, maintenance-free with remote management; 24 – 28 VDC in/out, wide operating temperature range: -40°C to +60°C, DIN rail mount. UL Listed and CSA Certified.	1
UPS003LSM	UPS load sense module. Optional accessory for use in dual, redundant power supply configurations to monitor load on primary supply.	1

IndustrialNet™ DIN Rail Mount Patching Solutions

IndustrialNet™ 8-port DIN Rail Mount Patching Solutions conserve precious real estate by consolidating all patching (fiber and copper) onto the DIN rails of a zone enclosure or control panel. These patching solutions are designed to "fit" with standard industrial switches and promote a structured cabling environment in the industrial network. IndustrialNet™ 8-port DIN Rail Mount Patching Solutions allow customers to easily deploy copper and fiber connectivity and provide improved network performance and flexibility through the creation of fiber and copper permanent links in the same modular DIN footprint.

Part Number	Part Description	Std Pkg Qty
FDME8RG	8-port fiber optic patch panel, DIN rail mount; includes a PG21 or 3/4 NPT cable cord grip to secure fiber cable(s) exiting the enclosure.	1
CDPP8RG	8-port copper patch panel, DIN rail mount; includes screws to attach faceplate, Ultimate ID® Labels and Clear Covers; can also mount to other surfaces using mounting holes in latches.	1
CDPP8RG-S	IndustrialNet™, 8-port DIN Rail mount Shielded Patch Panel. Includes Ultimate ID lables and label covers.	1

Representative list only. Please visit www.panduit.com for full offering.

Mini-Com™ DIN Rail Mount Adapter

The DIN Rail Mount Adapter enables connection of active equipment in a zone enclosure or control panel. The adapter accepts a single module space Mini-Com™ Module allowing easy moves, adds or changes to a single connection, with no specialized tools required. Low profile, compact size enables high component density on valuable DIN rail real estate.

Part Number	Part Description	Std Pkg Qty
CADIN1IG*	Mini-Com™ DIN Rail Mount Adapter mounts to standard 35mm DIN rail and accepts any single port Mini-Com® Module, International Gray.	1
CADIN1IG*-S	Mini-Com® DIN Shielded Rail Mount Adapter mounts to standard 35mm DIN rail and accepts any single port Mini-Com® Module, international gray. Includes a label and label cover.	1

*For standard colors other than IG (International Gray), replace suffix with BL (Black). Port can be identified with UILS8BW and LS8E hand-held thermal transfer printer. Please visit www.panduit.com for full offering.

IndustrialNet™ Copper Connectivity

IndustrialNet™ plugs, connectors, and adapters provide an ideal solution to support Industrial Ethernet connections to machines, devices and the rest of the plant network.

BEST SELLER

Copper Patch Cords

Patch cords are ideal for patching in panel building applications and are available in performance levels of Category 5e, 6 and 6A for UTP and shielded applications. The variety of cable colors and lengths meet individual length and color-coding requirements for greater system flexibility. Robust, 600 V-rated patch cords deliver reliability for panel or on-machine applications when space is shared with high voltage power cables in industrial environments.

Part Number	Description	Length ^	Color*	Std Pkg Qty
Unshielded Patch Cords				
UTP28X^*	Category 6A performance, 28 AWG UTP CM/ LSZH patch cord.	8 (in.), 1, 3, 5, 7, 10, 15 ft.	Off White (blank), Black (BL), Blue (BU), Green (GR), Red (RD)	1
UTP28SP^*	Category 6 performance, 28 AWG UTP CM/ LSZH patch cord.			
UTP6AX^*	Category 6A performance, TX6A™ 10Gig 24 AWG solid UTP patch cord.	1, 3, 5, 7, 10, 15 ft.		
UTPSP^*Y	Category 6 performance, TX6™ 24 AWG UTP patch cord.			
UTPCH^*Y	Category 5e performance, Pan-Plug™ UTP 24 AWG UTP patch cord.	1-20 ft., 25, 30, 35, 40 ft.		
Shielded Patch Cords				
STP28X^M*	Category 6A performance, 28 AWG F/UTP CM/ LSZH patch cord.	0.2, 0.5, 1, 1.5, 2, 2.5, 3, 5 meter.	International Gray (IG), Black (BL), Blue (BU), Green (GR)	1
STP6X^M*	Category 6A performance, TX6A™ 10Gig™ 26 AWG S/FTP shielded patch cord.			
STPCH^MBBL	Category 5e performance, TX5e™ 26 AWG F/ UTP shielded patch cord.	0.5-2.5m, 3-9m, 10, 15, 20, 25, 30, 35, 40m	International gray (IG), black boot.	
IndustrialNet™ 600 V Patch Cords				
ISTPH6X*MTL	Category 6A shielded, 600 V, 26 AWG SF/UTP, patch cord, TPE jacket.	0.6, 1-5, 7, 10 meter	Teal (TL)	1
ISTPHCH*MTL	Category 5e Shielded, 600 V, 24 AWG SF/UTP, patch cord, TPE jacket.			

UTP Best Sellers are blue and white, 1, 3, 5, 7, 10 feet for immediate delivery. For additional lengths and colors not listed see Panduit.com. Optional RJ45 plug lock-in devices offer a tamper resistant design that blocks unauthorized removal of critical connections, see page 26.

*Available standard lengths: 1M-5M, 10M, 15M

IndustrialNet™ Overmolded Cordsets

IndustrialNet™ Overmolded Cordsets deliver high quality patch connections from machines and devices to switches and enclosures on the plant floor. Protocols supported include Ethernet, EtherNet/IP*, PROFINET, Modbus, and EtherCAT. The cordsets are industrially rated to IP67/68, NEMA 1, 3, 4, 6, 6P, UL and meet the industrial premise standards for performance, including M.I.C.E guidelines, ensuring high performance and longevity under harsh environmental conditions.

*EtherNet/IP is a trademark of ODVA, Inc.

IndustrialNet™ Motor Control Center (MCC) Connectivity

IndustrialNet™ MCC Cable Bundles provide the critical connections between industrial switches and other smart devices to the MCC, allowing businesses to take advantage of new IoT and Ethernet technologies for improved monitoring and maintenance of existing systems. Pre-terminated and industrially rated, Panduit MCC connectivity delivers a fast and reliable solution for harsh plant floor applications.

Part Number	Description	Std Pkg Qty
I4KOTKLUXX**	Industrial MCC Bundle, Cat6A Shielded, 600 V, Teal, staggered right, unterminated	1
I4KOTLLUXX**	Industrial MCC Bundle, Cat6A Shielded, 600 V, Teal, staggered left, unterminated	

Replace ** with the cable length required. Lengths available from 10 - 250 feet.

IntraVUE™ Edge Industrial Ethernet Visualization and Monitoring Software

IntraVUE™ Software automatically detects Ethernet-connected devices and assembles them into a connection tree map of the physical layer network infrastructure, providing visibility into all levels of devices on a manufacturing floor. This software tool enables quick and efficient identification to network communication problems and provides a comprehensive, accurate view of an entire Ethernet device architecture for non-technical users. IntraVUE™ Software empowers maintenance and/or controls engineers to shift from a reactive to proactive approach to greatly improve both the uptime and performance of critical, real-time networked automation systems.
